

Delhi Public School Varanasi
Class Nur-XII

1st Oct' 18

Dear Parent,

As a preventive measure against 'DENGUE' please make your child wear full sleeves shirt and trouser to school. Also apply mosquito repellent every day.

Students of Class Nur-Prep must apply mosquito repellent everyday whereas Class I and II may also wear full sleeve shirt instead of short sleeves.

Students of Class III may wear full shirt and lower, till the time they start wearing winter uniform.

This is done in the interest of the students and we expect full support from the parents.

Principal
